Position.....2nd.....

Had a beautiful and warm opening that blossoms
into a lovely Bugle solo. Cornets not quite in tune
together on your entry but soon settles.
The music has a nice pulse and the bass line is
constant and sturdy. On occasion the melody gets lost
in the middle-upper band, but the music draws to
a rousing close. A really nice performance, thank you.

Test Piece Purpose

Saturday 18th June 2022

Position 2nd

A fairly clear opening but full of detail. Brilliant bell effects in bar 9. (B)-(C) is exciting but not without errors. (D) has a good p-be although ensemble rocks a little into (E). Solos at (E) almost all come off, but brass soprano's cornet solo at (H) is played with such tenderness and lovely phrasing. Beautiful sound. Band sounds throughout (H) are warm and the playing is so expressive. Careful with timing 9th of (I). Exciting stuff at (K) albeit not always the tightest ensemble. Melody at (M) flows nicely with some neat interjections around the band. An exciting finish to a good performance, but one that was marred by a few too many errors.

Thank you.
